

**VantagePoint**

## Engineered for safety, manufactured to last.

VantagePoint is available  
in black or white finish.

Operating remotely from up to 130 feet (40 meters), the VantagePoint LED light is lighting the way for a safe work environment. The remote control acts as a control center, operating the light's full complement of features. Vertical and horizontal tilt with infinite rotation creates a pan-tilt motion for maximum flexibility. VantagePoint's capabilities make it the ultimate lighting when searching for a person in an emergency situation or illuminating a house number while driving. Approaching motorists or pedestrians can be warned of potential hazards with the flashing alert. And when you're ready to shut it down, the light will automatically resume its forward facing stow position. With 16 LEDs VantagePoint offers up to 6700 lumens, delivering unmatched visibility to the scene.

## LED Remote Control Light Features

- 16 High intensity CREE LEDs generate ~6700 lumens of light
- 12V or 24V (4.2A / 2.11amps)
- 10° Beam angle
- Die cast magnesium lamp head
- Impact resistant polycarbonate bracket and base
- Automatic Stow
- Flashing Alert

## Easy Pan and Tilt Motion

- 115° Tilt
- 70° Up tilt
- 45° Down tilt
- 360° Continuous Rotation
- Rotates both clockwise and counterclockwise

## Wireless Remote Control

- Operator can remotely adjust up/down, left/right, on/off, and warning flasher
- Controls operate up to 130 feet (40 meters) from light
- Two remote controls included
- Includes surface mountable holster
- Uses one 23A battery (12V) (supplied)

Optics are engineered to deliver light where it's needed

Gear boxes are designed for heavy-duty service

Die cast magnesium lamp head

With an operational lifetime expectation of over 50,000 hours, LEDs can operate well beyond the lifetime of the average apparatus

Weight 7 lbs. (3.2kg)

Impact resistant polycarbonate bracket, base and lens

Connects to 12 or 24 volt DC power source

Two Remote Controls Included
